Comparing Travel Insurance Plans

Your trip may include a medical evacuation insurance plan provided by your tour operator or travel planner. This basic coverage is not intended to replace a comprehensive travel insurance plan and does not protect your financial investment in the trip.

With so much uncertainty around the world, it's more important than ever to travel with protection designed for a wide range of situations. Below is a quick comparison of insurance benefits that may be provided to you by your tour operator vs. the benefits that may be available to you with a comprehensive travel insurance plan.
