Welland Canal

SS Valley Camp

In the heart of North America lies the world's largest reservoir of fresh water, carved by glaciers 10,000 years ago. Surrounded by 11,000 miles of spectacularly sculpted shoreline, the five Great Lakes boast powerful natural wonders, historical maritime landmarks and some of the greatest engineering feats of the 19th century. Our tour offers a glimpse of life on the Great Lakes over the last two centuries as we

visit the nearly 200-year-old Welland Canal that connects Lake Erie with Lake Ontario and the mighty Soo Locks — one located in Sault Ste. Marie in Ontario, Canada, and the other in a city by the same name in Michigan. Learn more about this fascinating maritime history at the SS Valley Camp Museum, housed in a 1917 lake freighter, where two lifeboats from the famous Edmund Fitzgerald shipwreck are on display.
